
Maths

In Autumn our maths units are place value, addition and subtraction, multiplication and division and fractions.

Reading

In our daily reading sessions, we will continue to work on our fluency and comprehension skills. Please read your books 5 times a week.

Writing

We will be using the Monster Slayer to write for different purposes such as a character description of Beowulf.

Reminders

Read every day, reading records in school every day.

Spelling and times tables practice daily

Water bottles in school everyday

Trainers needed for PE on Mon and Weds

Year 5

Autumn Term 2026

A Beowulf Tale: Monster Slayer!

Visits and Visitors

We are hoping to do some road safety workshops in the local area.

History

Travelling back in time, we will explore the Anglo-Saxon era and their impact on Britain.

Science

This term we will explore different forces including friction and gravity and we will learn and space.

Geography

Using a range of maps will help us identify the main regions and cities of England.

PE

This term we will focus on hockey skills and have an introduction to handball

Computing

We will be learning about computer systems and networks.

Art

We will create still life inspired by Matisse using shape, light and tone.

Design Technology

We will explore different cooking techniques in order to make a tasty burger.

RE

This term we will look at expressions of faith as well as Christmas.

Music

Our topics this term include melody and harmony in music, and we will be singing and playing in different styles.

Jigsaw

Together we will understand how cultural differences can cause conflict.
