Roald Dahl often found himself in trouble at school as he didn't like the routine or following rules. He was once beaten by his teacher for putting a mouse in a jar of gobstoppers. Roald Dahl never forgot the gobstoppers and they are found in Charlie and the Chocolate Factory as Everlasting Gobstoppers. He moved school and never went to university, choosing to travel the world instead.

As soon as he could leave school, Roald travelled to Canada and soon after that, he chose to work in Tanzania, Africa. His thirst for adventure wasn't satisfied by just travelling. As he could no longer take part in the war, he moved to America and started writing for newspapers and magazines. Though he was a good writer, he always wanted to write stories that were more imaginary than real. This was perfect for children's books.

Roald Dahl sadly died on the 12th of November in 1990. He was 74 years old when he died. In his lifetime, he wrote 19 children's books.
